

Appendix 2 to Heldbjerg, H., A.D. Fox and T. Vikstrøm 2018: How can we improve citizen science based bird monitoring in Denmark? - Dansk Orn. Foren. Tidsskr. 112: 90-104.

List of regular breeding birds in Denmark which currently lack monitoring schemes, with an indication of whether the breeding sites are predictable or not, the optimal monitoring period during the day, nesting habits and habitat type.

Oversigt over regelmæssige danske ynglefugle uden årlig overvågning. Endvidere er vist forudsigelighed af yngleplads, tidsrum for primære aktivitet, kolonialitet og naturtype.
